

The no-call list in it's current form is one of the few times government has listened to the wants of the people instead of the wants of big business. Do not allow the banks/credit card companies to over-ride this. Personally speaking, the no-call list has resulted in my family being able to eat dinner, watch a TV show, etc. in peace, without the interruptions, and for those who work nights, the ability to sleep in the daytime without being awakened by sales calls.
